

# **ELEFANT Sugar Dissolving Oil™ - the best solution to all sticky problems**

The original formula of ELEFANT Sugar Dissolving Oil™ or «Zuckerlöseöl», as it is called in German, has always been one of the company's most guarded secrets. This high-quality product is often copied but never duplicated. The original ELEFANT Sugar Dissolving Oil™ is characterized by high stability, long shelf life and the extraordinary fineness of the emulsion.

## **Fields of applications**

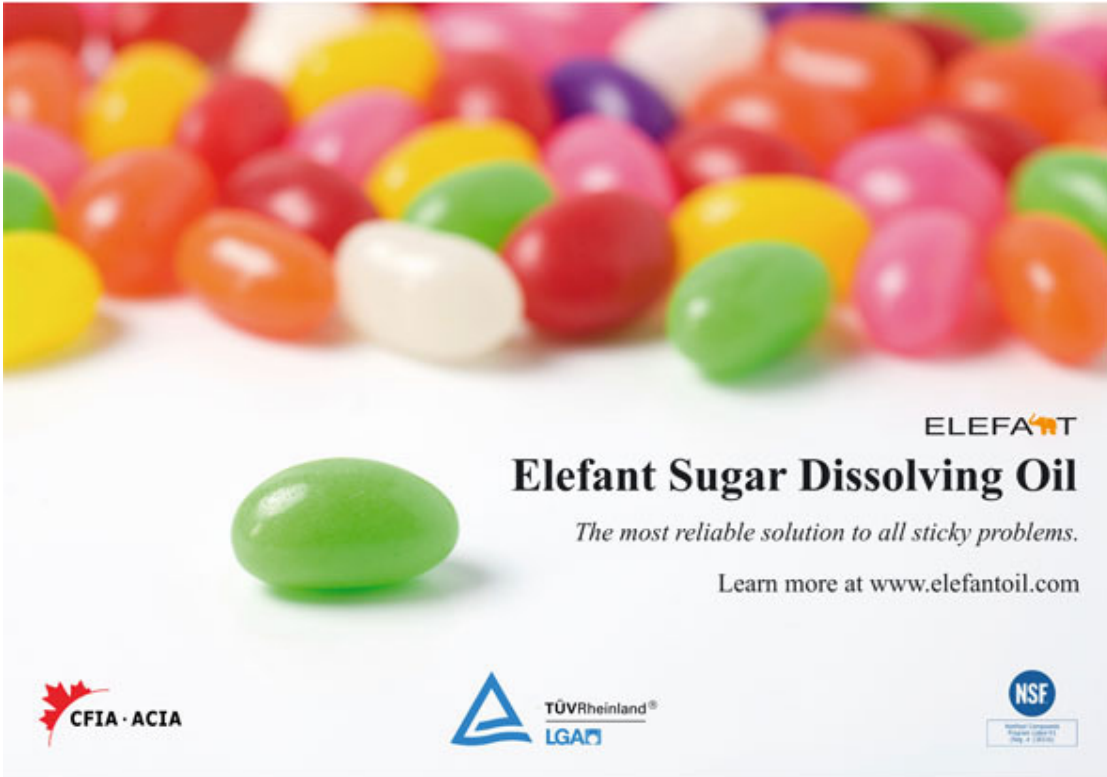

Original ELEFANT Sugar Dissolving Oil™ is a special product used to remove sugar accumulations which form from wrapping machines and other process equipment. ELEFANT Sugar Dissolving Oil™ is particularly recommended for use in the confectionery, pharmaceutical and many other sugar processing industries for the following applications:

- use to easily remove sugar accumulations and heavy caramel crusts
- use to lubricate affected parts
- use to prevent new accumulations of sugar
- use on chains of flow-wrapping equipment. The chains will run smooth without being slowed down by sugar dust or similar.
- use on hatches, springs and hinges to avoid jamming
- use on press jaws, tablet presses and moving parts of packaging or production equipment
- use on cutters or blades
- use on conveyors transporting food with content of natural or artificial sugar like chocolates, pieces of fruit, pastry or treats in general
- use on weighting plates of multihead weighers to avoid false weights
- use neat as a bearing lubricant on slide ways where contamination by sugar or sugar dust is a problem

## **Benefits of the Original Sugar Dissolving Oil™**

- ELEFANT sugar dissolving oil is fully compliant with FDA H1 rules (21 CFR 178.3570).

- reduces the time of maintenance and the number of expensive shutdowns of your equipment, increasing the performance and the reliability.
- is practically odourless which guarantees a more pleasant working environment.
- formula is exceptionally stable and extremely durable in time.
- is harmless provided safe work practices and sensible hygiene precautions are followed.
- acts to prevent sugar build-up when applied.
- dissolves the sugar on your equipment and keeps it clean.
